ASH GROVE CEMENT WEST, INC.

Inter-Office Memorandum

Date April 6, 1987

To Jim Post, Erik Voldback

From Ken Rone

Copies to _____

Subject Activity report, week ending 4/5/87

1. Finished replacement of office roof.
2. Will send O₂/CO analyzers to Inkorn. Will also send balance of 70% brick. Will scrap 40 %.
3. Met with Port of Seattle. Advised them that we would entertain a 2:1 land swap for easement property and that we would not cancel our 90 day notice letter but would allow an extension if reasonable progress is being made. Also advised them that 100 trucks per day would need to pass south gate and our records show no plant operations on that parcel. They will need to appraise property and drill and sample it.
4. Sent three pallets of Masonry sacks to Montana City (see Mr. Weber).
5. Durkee advises that clinker deliveries will be cut in half beginning April 6, to 1000 tons/wk. Five week sales average is 1800 tons/wk.
- X 6. Decision required: CE Raymond offered \$30K for our coal mills and parts. Should we accept offer?
7. Met with Mr. Merlino over proposed facility. He is concerned that we are relenting to the Port at his expense. Is concerned he will not have enough parking space. I indicated parking space could easily be made available by changing fence line along their west border.
8. No Accidents. No Visitors.
